

## Maturity

# Ergro® K Excel 3-26-36

## Improves Hardiness, Fruit Filling and Uniformity of Plants and Fruits

**Ergro® K Excel** is a premium foliar nutrient blend crafted with potent concentrations of phosphorus and potassium, bolstered by the essential additions of boron and zinc. Specifically formulated to address nutrient deficiencies, this advanced solution is fortified with micronutrients and fulvic acids. These additives not only supplement plant nutrition but also aid in retaining vital soil moisture levels.

## Benefits

- Provides necessary nutrition to cover plant needs in maturity and fruit filling stages
- Increases cell permeability for better uptake and fruit development
- More uniform fruit, with more flavor, aroma and sugar content
- Improves hardiness of fruits and vegetables
- Extends shelf life
- Increases quality and quantity of crops
- 100% water soluble

## Mode of Action

- Includes fulvic acids, which help transport nutrients through the plant
- Nutrients penetrate via the stomas of foliage and stems, delivering the necessary phosphorous and potassium at maturity and fruit filling stages
