

Shake well before use

DESCRIPTION

Ergro® Soil L-40 is a compound of substances of Organic Origin that comes from the decomposition of Organic Matter, via specific microorganisms, until obtaining a total humification. The result of this process is a mix of Humic Acids, where the highest percentage is the Fulvic Acid.

MAIN BENEFITS USING Ergro® Soil L-40

- * Helps the micronutrients chelating process.
- * Makes more assimilable all the plant nutrients.
- * Maximizes the physiological and genetic expression.

IMPORTANT

In order to immediately confirm the benefits of **Ergro® Soil L-40** follow your regular crop practices without **Ergro® Soil L-40** on a small area of your field and leave it as a check plot. In another side of your field follow your regular crop practices and add **Ergro® Soil L-40**. After 10-20 days compare your crops. You will be able to see the difference in your crop.

CAUTION

Ergro® Soil L-40 is non toxic when used as directed.
If mixed with pesticides, please follow the label directions of those products.
Do not store with food products. Do not reuse the container, destroy it. Do not leave within the reach of children.

GUARANTEE

Ergro® Soil L-40 components are guaranteed. However, as we do not have any control in its use we have no control for the results obtained.

RECOMMENDATIONS AND DOSAGE

Application to the Field

• Mix with the fertilizer (foliar or soil, liquid soluble or dry soluble) to be applied on your crop at a dosage of 5% to 10%. The mixture can be added to the tank with the solution to be applied to the crop. Apply your fertilizer using your normal application system.

Application Added to Liquid Fertilizers

• Mix with the liquid fertilizer at the formulation process at a dosage of 5% to 10%.
